

***Empowering Enterprises***

Kclink is a global diversified outsourced IT services and solutions company. Since 2007, we are assisting our clients to achieve their business objectives by successfully outsourcing their non-core business processes and delivering enterprise solutions. Kclink executed numerous engagements for diverse clients by leveraging our people, processes and technology to catapult our clients to achieve their business potential.

Kclink has earned an ISO: 9001-2008 and qCMMI Level III certification. At its core, this certification means that all clients can count on us to perform with consistency and quality. We also received award for being the fastest growing India Company by International Achiever's Conference (IAC).

We have vast experience in offshore outsourcing and have matured into a dependable outsourcing partner providing substantial value and savings to our clients.

### Kclink Services

#### Custom Application Development

Kclink's broad industry expertise and adoption of the highest quality processes enables us to deliver robust and scalable applications that help organizations reduce complexity, mitigate risks and achieve business objectives.

#### Document Management and Imaging Solutions

We provide the Workflow and Document Management services on a consultative basis. We primarily work with Newgen Software company, only company that provides the complete solution on a single platform. Our BPM and ECM products have been evaluated by Gartner Analysts.

#### Web Development

With our affordable custom web site design service you can professionally design your web site and boost your profit potential within a week! At Kclink we specialize in affordable small web site design templates as well as corporate web site design services that turn web site viewers into customers. Easy-to-use layouts, stylish designs and effective ecommerce solutions all go together to create a money-making business web site design. So, why not allow Kclink, a professional corporate web designing company to design your custom web site? Its easy great value for money and could just be the key to increased profit!

### Independent QA

At Kclink, we think differently...

We believe that it's essential to have dedicated team of testers and testing definitely helps to save the time and efforts on the whole that eventually saves expenditure for any project. Our idea is to provide quality oriented solutions. Our Project Manager ensures that the execution of procedures and standards are met at all the stages of SDLC (Software Development Life Cycle) starting from Systems Requirement phase to Design & finally to the Development. We make sure that the compliance to processes and standards are followed, throughout our course of monitoring and assessment into a dependable outsourcing partner providing substantial value and savings to our clients.
